COURSEWORK

UNDERGRADUATE

Object-Oriented Programming
Data Structures & Algorithms
Database Management System
Operating system
Computer networks

SKILLS

TECHNICAL PROFICIENCY

- C/C++
- Java
- SQL
- JDBC
- SpringBoot

SOFT SKILLS

- Strong work ethics
- Adaptability
- Quick Learner
- Team Player
- Problem-Solving

ACHIEVEMENTS

Certified in Wipro Talent Next Program
Earned Gold badges in HackerRank for C and C++
Certifications from Various Learning Platforms

CO-CURRICULAR

ACTIVITIES

ZONAL SPORTS | Volleyball, Kabaddi
Participated in district-level competitions.

POSITION OF

RESPONSIBILITY

Team Lead - Minor & Major Academic Projects.
Have been one of the protocol team members for the college fest.

LANGUAGES

English, Telugu

ACADEMIC DETAILS

BHARATH UNIVERSITY, CHENNAI

B.Tech, Computer Science Engineering

2020 - 2024

CGPA : 8.5

NARAYANA JUNIOR COLLEGE, VIJAYAWADA

Intermediate (Class XII)

Group : MPC

2018 - 2020

CGPA : 9.6

Marks : 943

MARY ROSE BUDS HIGH SCHOOL

Class X

EXPERIENCE

ASSOCIATE SOFTWARE ENGINEER

Tata Consultancy Services

Oct 2024 - Present

- Worked on a Java web application using Struts, Servlets, Hibernate and SQL.
- Handled JIRA tickets (Run JIRAs) involving issue analysis, bug fixing, and code debugging. Analyzed and fixed dynamically built SQL queries in java, ensuring queries built with StringBuilder executed correctly in database.
- Used TeamCity for builds and deployments, and managed code with SVN.
- Deployed and troubleshoot applications on IBM WebSphere server.
- Performed manual testing for JIRA tasks to ensure bug resolution and application stability.
- Collaboration with the team to investigate and resolve issues in both development and production environments.

PROJECTS

WEB-BASED FULLSTACK BANKING MANAGEMENT SYSTEM

- A secure, web-based application offering centralized account management for administrators and seamless access to banking features for customers.
- Includes customer registration, account updates, transaction monitoring, fund transfers, and detailed account views.
- The system is developed using JSP, Servlets, and MVC architecture, with JDBC integration and CSS for a responsive and user-friendly interface.

GROUP CHATTING APPLICATION - SOCKET PROGRAMMING, JAVASWING, JFRAMES

- Designed and implemented a real-time chatting application using socket programming for seamless communication between multiple clients and servers.
- The server was implemented to handle multiple clients concurrently using multi-threading, ensuring scalable communication environment.
- Built the user interface with Java swing and Jframes, providing a interactive chat experience.
